

From classroom to *office*

A Comprehensive Solution for Job-Ready Graduates

APOORV SORAL
CEO, Dexciss Tech

A pioneering initiative by Dexciss Technology aimed at transforming the landscape of graduate employability in India

Let us *introduce*

Welcome to Classroom to Office, the pioneering initiative by Dexciss Technology aimed at transforming the landscape of graduate employability in India. As an IT company rooted in Pune, we understand the challenges fresh graduates face in transitioning from academia to professional roles. Our journey began with a simple yet profound realization: while theoretical knowledge is abundant, practical skills are often lacking, leaving a staggering 85% of graduates unprepared for immediate employment.

Inspiration & Approach

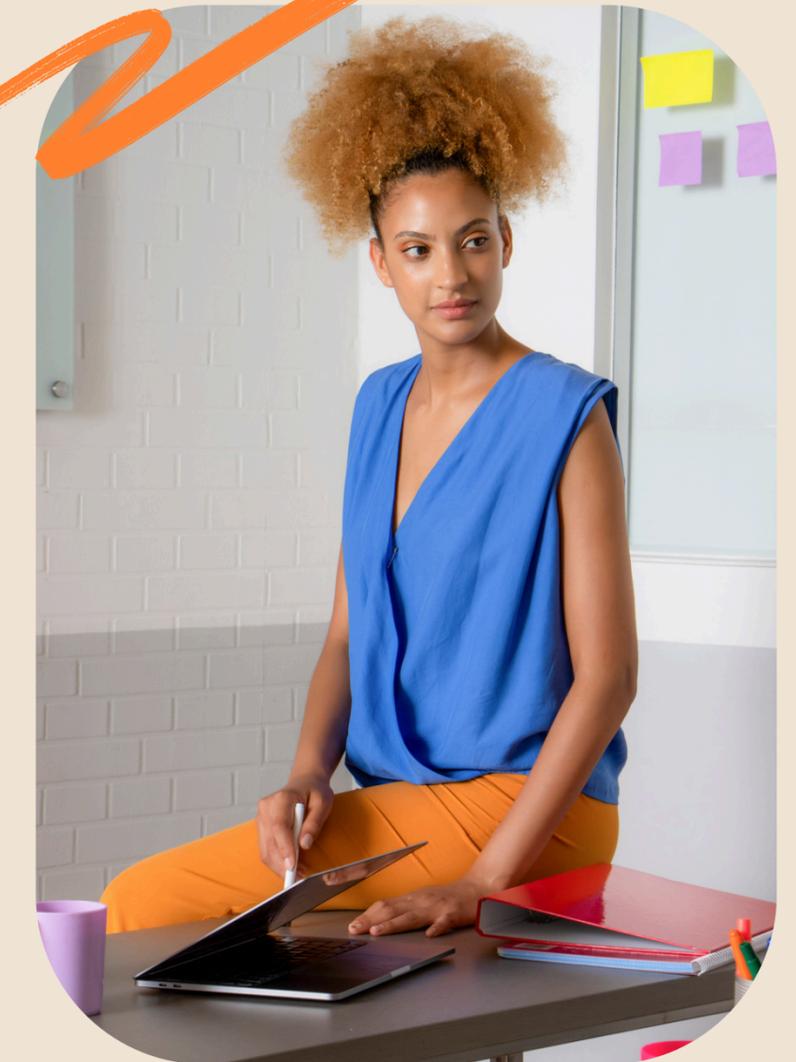

Drawing insights from esteemed institutions like Harvard, renowned for their practical, case-study based education, we developed an innovative training program tailored to Indian students' needs. Inspired by Harvard's curriculum, our program focuses on imparting real-world skills essential for today's competitive job market. We don't just educate; we mentor and groom students to excel from day one, equipping them with critical problem-solving abilities and leadership qualities.

Why our training program?

- Bridging the Gap: We address the critical divide between academic learning and industry demands, ensuring graduates are well-prepared for successful careers.
- Hands-On Training: Our immersive approach includes hands-on training modules supervised by industry veterans, offering insights into IT, manufacturing, and related sectors.
- Direct Pathways: At least 5% of our graduates secure direct positions within Dexciss Technology's IT division, kickstarting their careers with a trusted industry leader.
- Specialized Job Portal: Graduates gain access to a dedicated job portal connecting them with hiring employers, facilitating placements across diverse industries.
- Proven Success: Over 500 students have launched successful careers post-program, testament to our commitment to transforming educational outcomes.

What does the college get?

In the intricate fabric of knowledge, educational institutions emerge as radiant guiding lights, molding the futures of upcoming skilled individuals. Through this profound partnership, these esteemed establishments impart upon their students:

01

Comprehensive Training Modules

Covering crucial domains such as Sales & Distribution, HR Management, and Industry 4.0 technologies, enhancing employability.

02

Flexible Pricing

Colleges retain autonomy over pricing, with our course priced at 10,000 INR per seat, allowing institutions to charge up to 16,000 INR, maximizing revenue potential.

03

Career Advancement

Our program has empowered numerous alumni to secure coveted roles across various sectors, elevating college reputations and alumni success.
