E-Signature: Digital Signature Add-On for Your ERP Software

Eliminate Manual Signatures. Speed Up Approvals. Stay Secure.

Introduction: Why E-Signature?

ERP systems streamline operations, but approvals often require manual signatures. Printing, signing, scanning, and emailing documents create unnecessary delays, reduce efficiency, and lack real-time tracking.

With e-Signature AddOn developed Dexciss Technology, you can digitally **sign documents directly within your ERP system**, eliminating paperwork while ensuring legally valid and secure approvals.

Where does eSign help?

✓ Sales contracts & agreements
✓ HR documents (Offer Letters, NDAs, Policies)
✓ Invoices & financial approvals
✓ Compliance & audit-ready documentation

How E-Signature Add-On works?

Store Signature
Draw or upload your digital signature & save it securely for quick future use.

Send for Signing
Select a template and customize if needed. Assign signers and send documents instantly.

Sign & Submit
Users access pending documents via their eSign inbox. Click, sign, and submit—all within your ERP.

Create Document Template
Upload a base document (contract, invoice, etc.), and add signature fields, text boxes, checkboxes, and dates.

Track Document Progress
Monitor real-time status: Unseen, In Progress, & Completed. Hover over documents to see who has signed & what's pending.
